

PRODUCT GUIDE

PokeArena

Battle. Compete. Climb.

The competitive stadium for Generation 9 Overused. Stake POKE in player-funded casual fights, or enter low-cost cups for prizes funded by the Tournament Treasury. Battles are Showdown-synced: legal teams, legal choices, and one settlement when the fight ends.

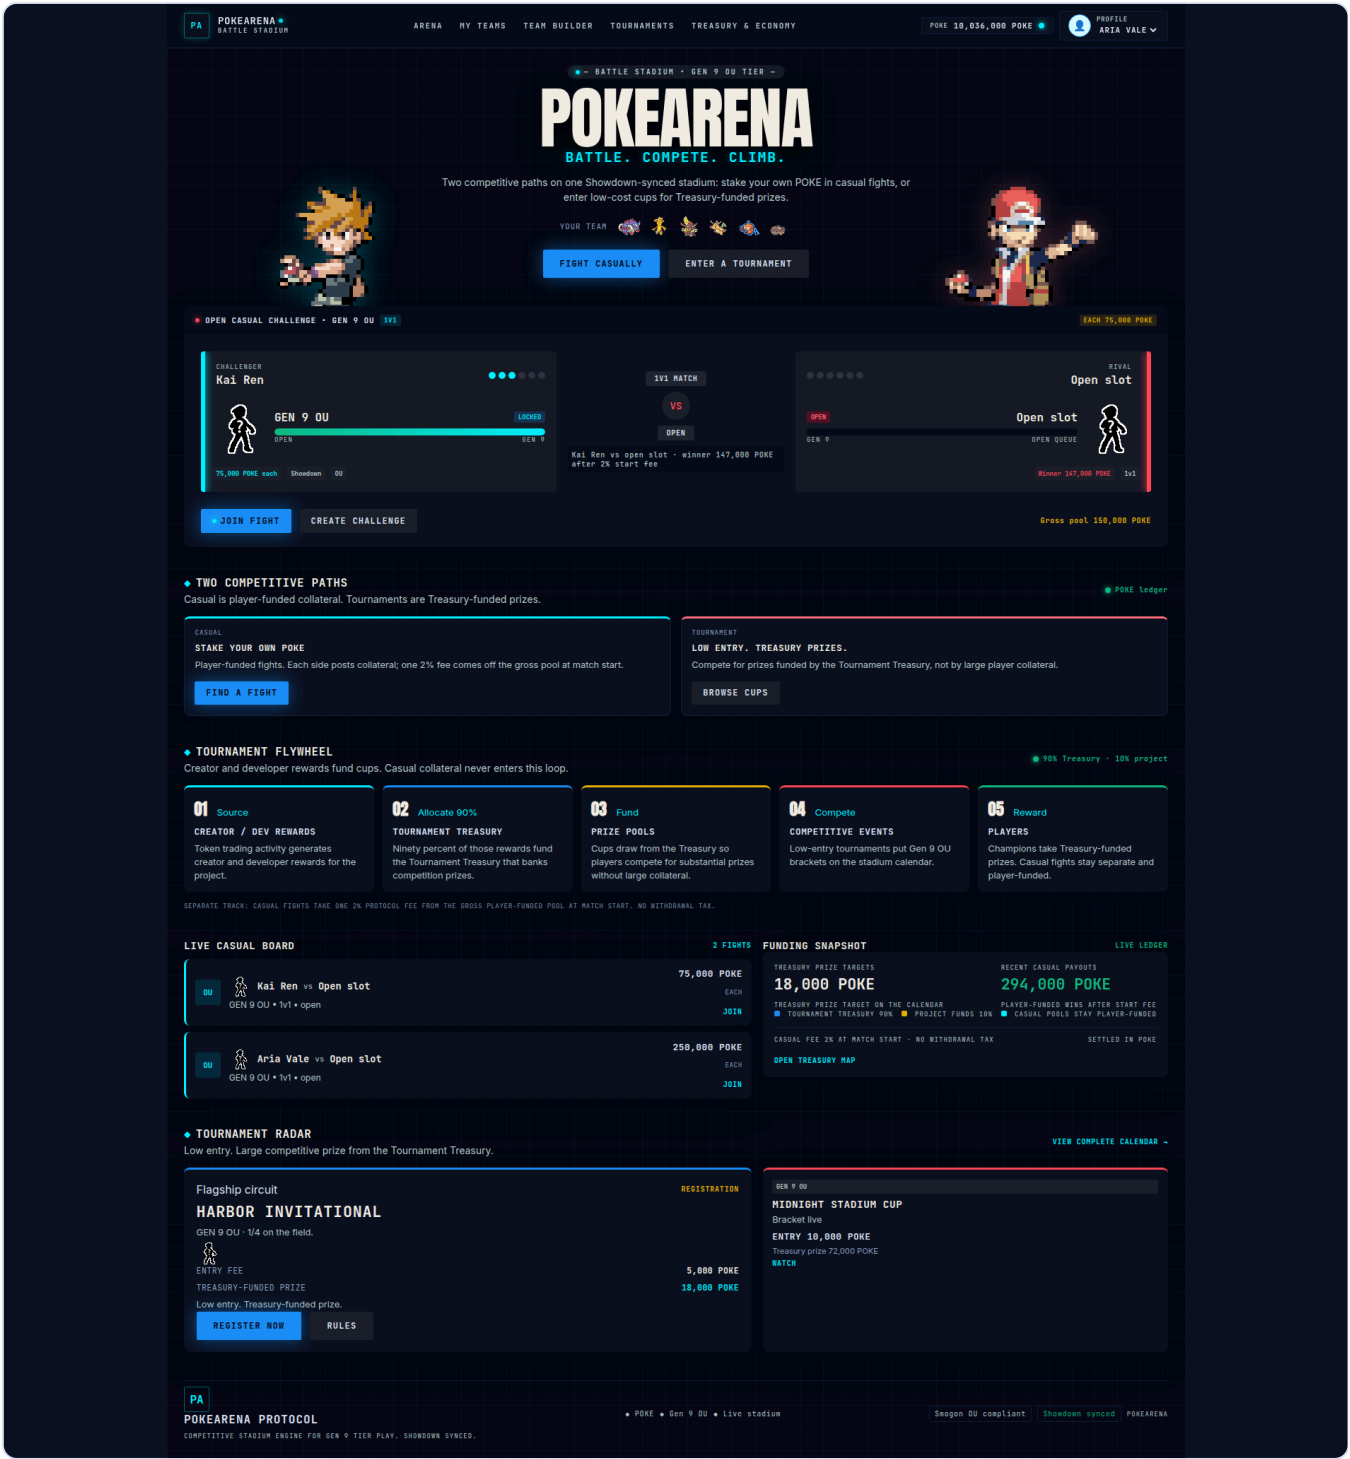

Gen 9 OU Casual collateral Treasury cups

The stadium

PokeArena puts two competitive paths on one stadium. Casual fights are funded by the trainers in the match. Tournaments are funded by the Tournament Treasury. The header stays on every screen and shows your POKE balance, the live connection, and the active trainer profile.

Aria Vale and Kai Ren are the stadium profiles. Switch between them from the profile menu.

STADIUM HOME

Two ways to compete

Casual fights and tournaments share the Gen 9 OU ruleset. They do not share money.

PATH	WHO FUNDS IT	WHAT YOU POST	WHAT THE WINNER RECEIVES
Casual	The two trainers	The same collateral from each side	98% of the gross pool
Tournament	The Tournament Treasury	A small entry fee	The Treasury prize for that cup

Casual collateral never enters the Tournament Treasury. Creator and developer rewards do. Ninety percent of those rewards bank the Treasury that pays cup prizes. Ten percent stays with the project for stadium operations.

Casual fights

Open the Arena to see every challenge on the board. Each card shows the challenger, the format, the collateral each trainer must post, the gross pool, and the winner's payout after the start fee.

CASUAL LOBBY

The screenshot shows the 'CASUAL LOBBY' interface in PokéArena Battle Stadium. At the top, the navigation bar includes 'PA', 'POKEARENA BATTLE STADIUM', and tabs for 'ARENA', 'MY TEAMS', 'TEAM BUILDER', 'TOURNAMENTS', and 'TREASURY & ECONOMY'. The user's profile 'ARIA VALE' is shown in the top right corner with a balance of 10,036,000 POKE.

The main section is titled 'CASUAL // PLAYER-FUNDED FIGHTS' and features a large 'CALL YOUR MATCH.' header. Below this, it states: 'Gen 9 Singles. Post collateral each, fill the room, then fight. One 2% fee comes off the gross pool at match start.' A 'CREATE CHALLENGE' button is located on the right.

A summary bar indicates 'AVAILABLE TO STAKE 10,036,000 POKE' and '2% once from the gross pool at match start - winner receives 98% - no withdrawal tax'.

The 'OPEN CHALLENGES' section is titled 'PICK A TRAINER' and lists two active challenges:

- Challenge 1:** Trainer KAI REN, 75,000 POKE stake. Each winner receives 147,000 POKE. Status: OPEN SLOT, WAITING... (3/4 full). Buttons: OPEN, JOIN.
- Challenge 2:** Trainer ARIA VALE, 250,000 POKE stake. Each winner receives 490,000 POKE. Status: OPEN SLOT, WAITING... (3/4 full). Buttons: OPEN, JOIN.

The 'YOUR BOARD' section shows 'ACTIVE CHALLENGES' with three completed matches:

- Match 1:** Trainer ARIA VALE, 50,000 POKE stake. Each winner receives 98,000 POKE. Status: COMPLETED. Opponent: KAI REN. Button: VIEW.
- Match 2:** Trainer ARIA VALE, 100,000 POKE stake. Each winner receives 196,000 POKE. Status: COMPLETED. Opponent: KAI REN. Button: VIEW.
- Match 3:** Trainer ARIA VALE, 250,000 POKE stake. Each winner receives 490,000 POKE. Status: OPEN SLOT, WAITING... (3/4 full). Button: JOIN.

The 'MATCH HISTORY' section is titled 'RECENT RESULTS' and shows two match result cards:

- Match Result 1:** CASUAL 74F52471. WINNER: Kai Ren. POKE payout: 98,000 POKE. casual-win. Button: OPEN DETAILS.
- Match Result 2:** CASUAL 97B3B4F7. WINNER: Aria Vale. POKE payout: 196,000 POKE. casual-win. Button: OPEN DETAILS.

Call a challenge

Create a challenge to set the stake before anyone joins.

- Format is Gen 9 OU singles.
- Open challenges appear on the Arena for any trainer.
- Private callouts go only to the trainer you invite.
- Both trainers post the same collateral. The gross pool is that amount twice.
- A 2% protocol fee is taken once, from the gross pool, when the match starts. There is no withdrawal tax.
- The winner receives the remaining 98%.

Example at 100,000 POKE each: the gross pool is 200,000 POKE, the protocol fee is 4,000 POKE, and the winner receives 196,000 POKE.

WINNER PAYOUT

Player-funded. One fee from the gross pool. No withdrawal tax.

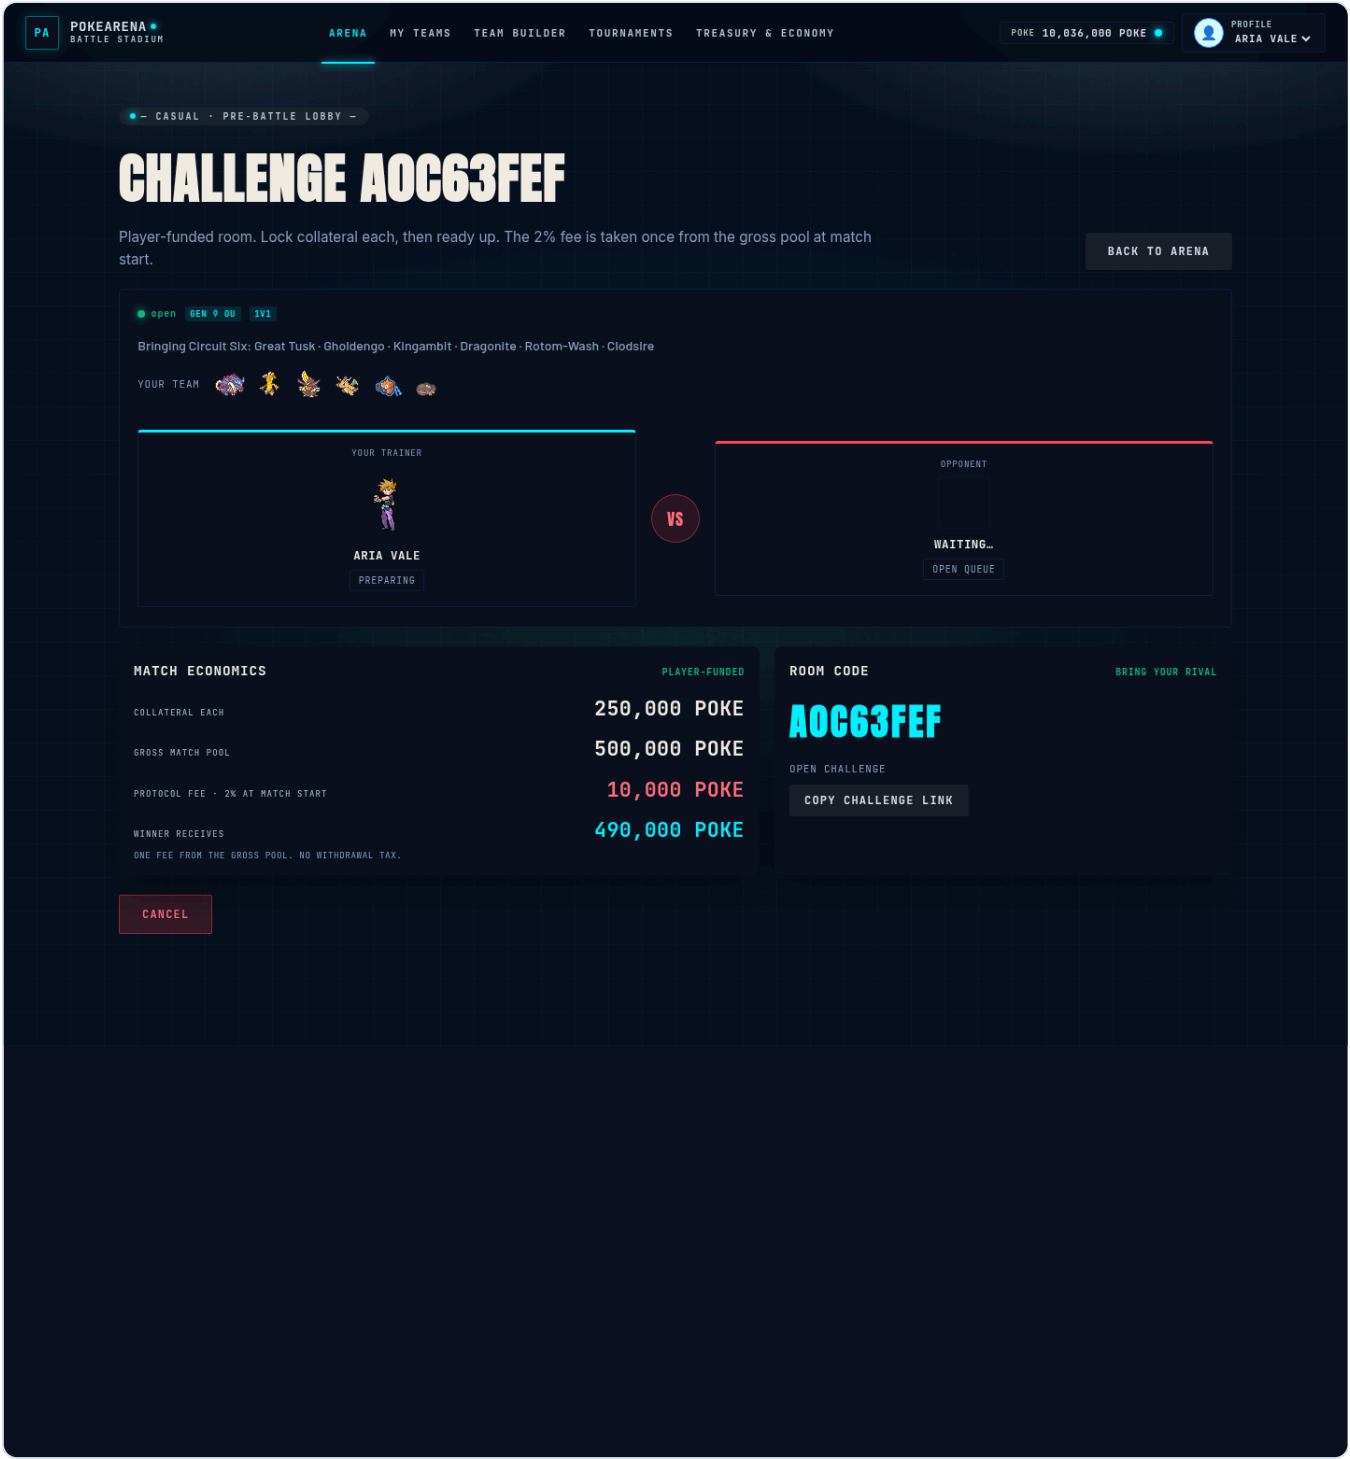

Collateral each	100,000 POKE
Gross match pool	200,000 POKE
Protocol fee - 2% at match start	4,000 POKE
Winner receives	196,000 POKE

One fee from the gross pool. No withdrawal tax.

CREATE CHALLENGE

The lobby

The room lobby is where both trainers lock in. Your saved Gen 9 OU team is shown before you ready up. The room code can be copied for a rival, and the economics stay visible until the fight starts. When both trainers are ready, either one can start the battle. Collateral is committed at the start, and the protocol fee is charged at that moment.

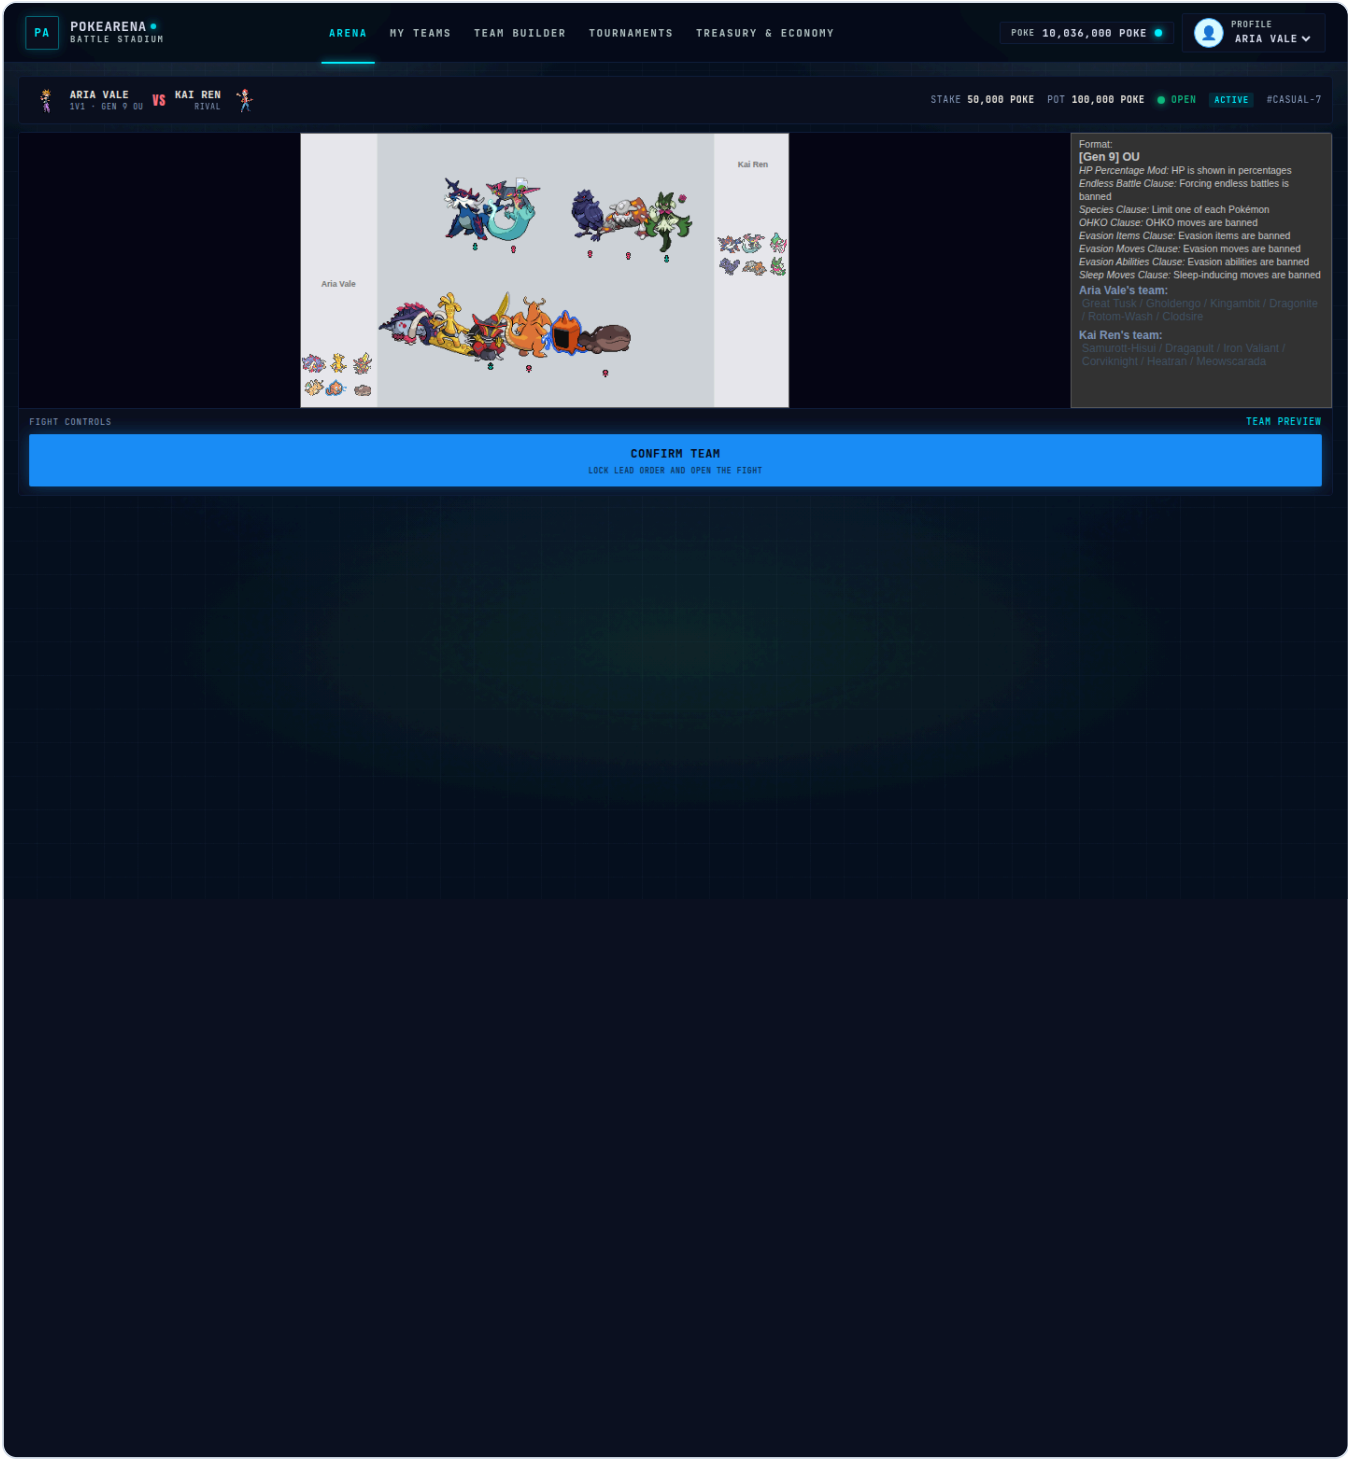

The fight

The battle screen is the Showdown client, bound to your trainer. Team preview comes first. Confirm the lead order, then play the fight with the moves and switches the position allows. The bar above the field shows the rival, the stake, and the pot.

Leaving the battle tab does not end the fight. The stadium keeps a rejoin path until the match is decided or you forfeit. A forfeit awards the fight to the rival.

LIVE BATTLE

The result

Finished fights land on a result card. The winner is credited in POKE. The ledger shows the reason, the format, and the 2% protocol fee.

EDIT TEAM

The team builder is the editor. It loads the saved protocol, validates it against Gen 9 OU, and shows species, items, abilities, Tera types, moves, EVs, and the defensive profile of the six. Save the protocol on this browser, then bring it to a casual ready-up or a tournament registration.

A paste that does not pass Gen 9 OU can still be saved as a draft. A match brings the circuit roster until the draft is legal.

Tournaments

Cups are not collateral wagers. You pay the entry fee and compete for a Treasury prize. The calendar leads with the featured cup and lists the rest of the circuit. Harbor Invitational is open for registration at 5,000 POKE, with an 18,000 POKE Treasury prize. Midnight Stadium Cup is already on the bracket.

Open a cup to register, or to watch the bracket once it is live. Registration uses your saved team. When the field is set, the cup starts as a single-elimination bracket. Your match opens the same battle screen as a casual fight. The champion receives the Treasury prize for that cup.

MIDNIGHT STADIUM CUP

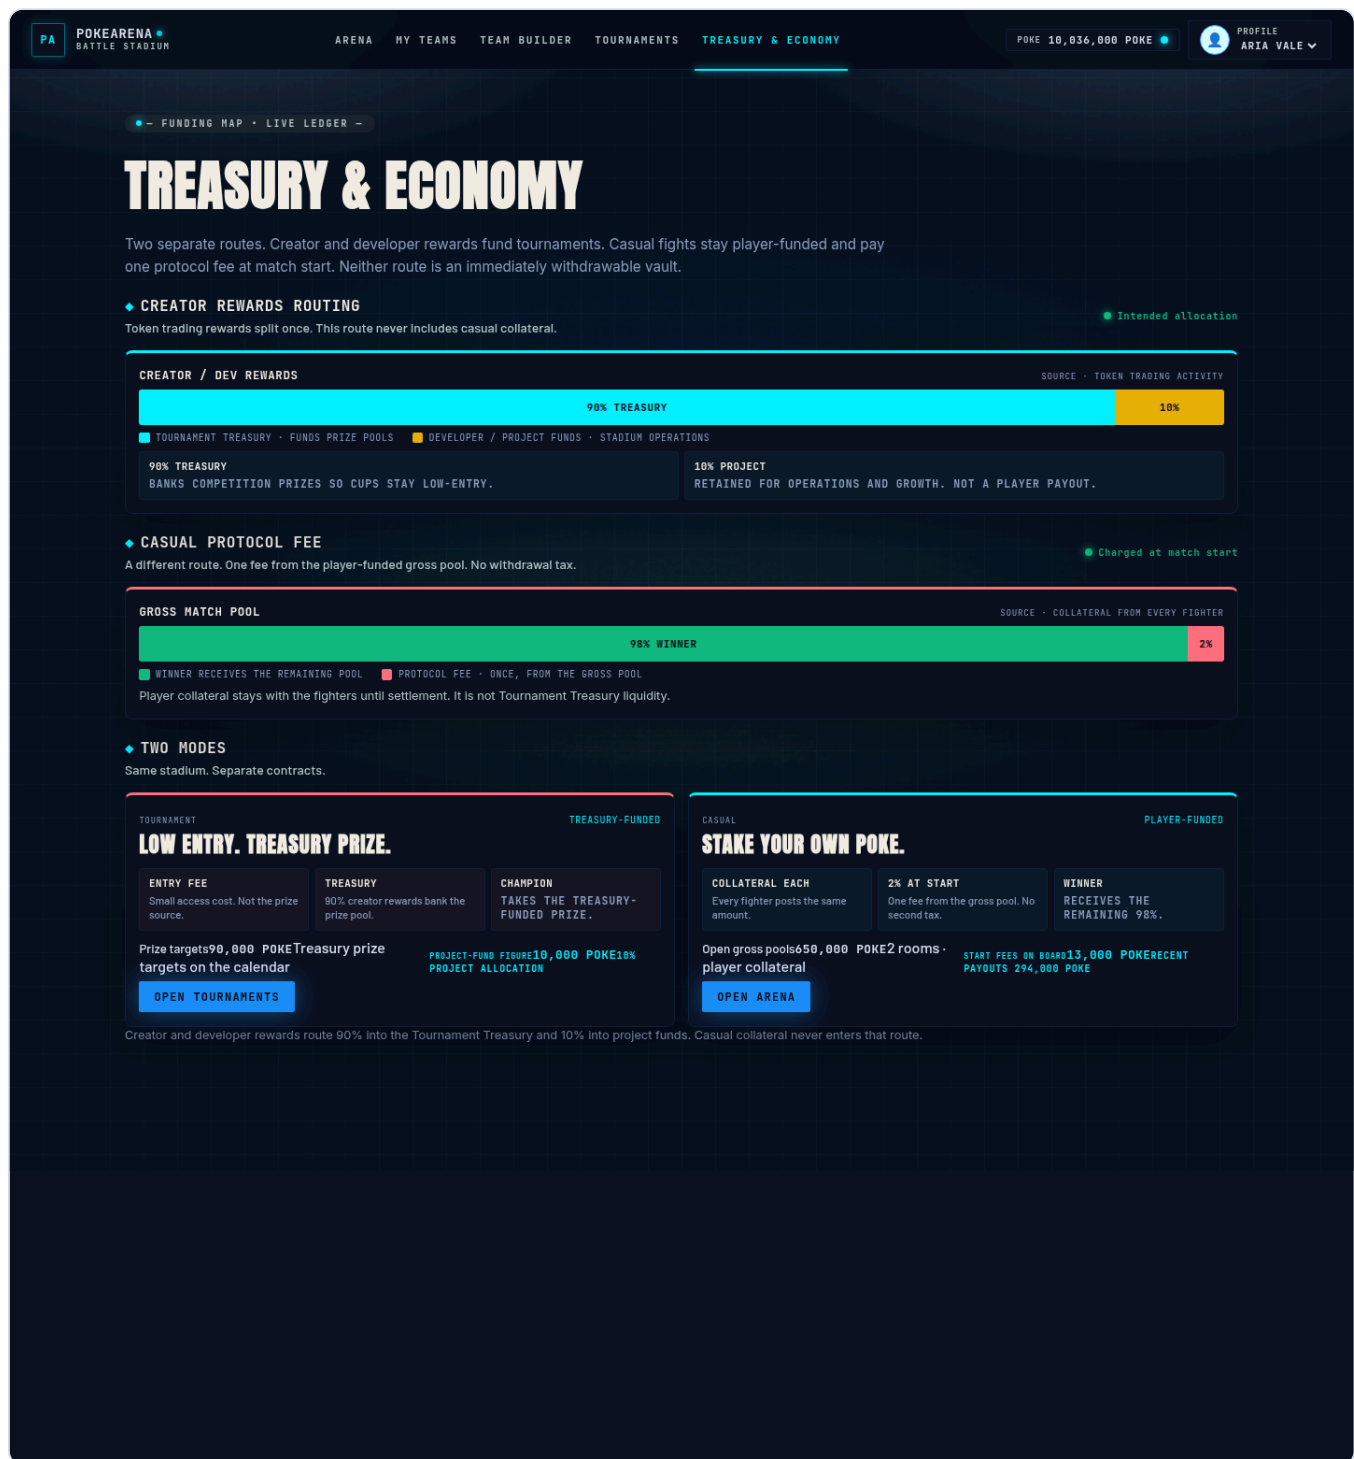

Treasury and economy

Treasury & Economy is the funding map. It keeps the two routes separate.

Creator rewards. Token trading activity produces creator and developer rewards. That stream is split once: 90% goes to the Tournament Treasury and banks cup prizes, so events can stay low-entry. 10% stays with the project for operations and growth. It is not a player payout.

Casual protocol fee. This route never touches the Treasury. Each fighter posts collateral. At match start, 2% of the gross pool is the protocol fee and the winner receives the other 98%. Open pools and recent payouts are shown from the fights currently on the stadium.

Run the stadium

From the repository root:

```
pnpm install
pnpm --filter @pokearena/battle-engine build
pnpm --filter @pokearena/tournament build
pnpm --filter @pokearena/api build
pnpm --filter @pokearena/api start
pnpm --filter @pokearena/web dev
```

The API listens on `http://127.0.0.1:3000`. The stadium UI listens on `http://127.0.0.1:3001`.

Sign in with Aria Vale or Kai Ren from the profile menu. Build a team, post a casual challenge, or register for the cup on the calendar.
